President's Medal

fire service medal for
meritorious and
distinguishd services

Key Expertise & Services

- Fire Safety Advisor, Auditor, Trainer, and Consultant for government and corporate agencies.
- Assistance in formulating and updating codes, standards, rules, and regulations for governmental bodies.
- Support in developing fire safety Standard Operating Procedures (SOPs) for government and corporate facilities.
- Guidance in creating and enhancing curriculum for both government and private institutions.
- Preparation of project reports for financial assistance and the development of professional competence in fire services.

EXPERIENCE AND ACHIEVEMENTS

- Experience-40 years in Fire and Life Safety Systems

International Experience

- His international experience has strengthened his understanding of emergency response management by collaborating with global Fire and Rescue Services, including those in the UK, Japan, and the USA. He has studied various management systems and communication software, enhancing his expertise in firefighting tactics, emergency equipment maintenance, and training fire service personnel in safety inspections and legislation.

Professional Achievements of Merit

- He has reached significant milestones through a committed approach to his work, notably modernizing Fire Services by initiating projects to convert them into All-Hazards Response Units in India. Additionally, he led a ₹236 crores proposal for the National Fire Service College, aimed at establishing it as a premier training institution. This initiative has enabled the new campus to offer 31 courses for fire and disaster management professionals. He was an Officer responsible for maintenance, equipment, operations, and administrative duties. He served at the Atomic Energy Plant dedicated to the production of heavy water.
